Confluence Alerts

No strong multi-signal confluence detected today. This is normal — confluence setups require 3+ independent sources to agree on direction for the same asset. Individual signals from the technical dashboard and trader positions may still offer actionable insights.

Strongest Individual Signals Today

- **DIA:** Near SMA200
- **IWM:** Near SMA200
- **AAPL:** MACD bullish crossover
- **AAPL:** Near SMA200
- **MSTR:** Price below lower Bollinger Band

Daily Playbook

Market Posture

- Market posture: **DEFENSIVE** — majority of tracked assets trend bearish
- Favor short setups, put spreads, or reduced long exposure
- Look for oversold bounces only with strong catalyst confirmation
- Consider hedging existing long positions with protective puts
- Small-cap weakness (IWM) suggests risk-off environment

Economic Events to Watch

- No major economic events on calendar for today

Risk Management Reminders

- Maximum 1-2% of portfolio risk per trade
- Always set stop-losses before entry — no exceptions
- Confluence signals increase probability but do not guarantee outcomes
- Position size based on stop distance, not conviction level
- Be extra cautious around major economic data releases
